

Over A\$15 million
given to Australian
and NZ charities
since 1984

ARTHRITIS NZ, WELLINGTON

Arthritis NZ supports more than 55,000 arthritis sufferers, including more than 1,000 children, via information and education, direct support, public awareness, research, advocacy and lobbying.

A longtime wish of Arthritis NZ has been to raise enough funds to hold a children's camp so these kids can meet others who are also dealing with this debilitating condition. The aim is to help them grow in confidence, gain more independence and learn new pain management methods from professional volunteers.

The \$14,500 donation will be used to hold the first ever camp for children with arthritis plus an accompanying parent and volunteer medical staff.

The Legacy
Lives On!
