given to Australian  
and NZ charities  
since 1984

## HEART CHILDREN NZ, AUCKLAND

Heart Children NZ has its national office in Auckland and 18 regional branches, which support more than 3,400 children and families affected by heart disease.

Their services include family support, hospital support, education, loan of equipment, a kid's club and three annual holiday camps.

The holiday camps provide an invaluable means of enabling heart kids to have fun with others their own age and learn how to deal with their limitations in a highly supportive and medically monitored environment.

The \$19,000 donation will be used to hold the 2011 Camp Teen Beat in Auckland for 45 children aged 13-16 years.

The Legacy  
Lives On!
